2007 Preliminary Annual Report

COHORT 3 GRID (for calculating the licensure rate)

Instructions

1. List, in alphabetical order, graduates from your institution (no matter what year they graduated) who sat, for the first time in 2007, for the final portion of the exam needed for licensure in your state. Count and enter this number on item 6 of the preliminary annual report worksheet.
   - If a graduate took all portions of the exam in 2007, for the first time, list him or her.
   - If a graduate took one portion of the exam in 2006 or earlier, and took the other part(s) in 2007, he/she should be listed as taking the exam in 2007.
   - If a graduate only took one portion of the exam in 2007, and left other parts for later, do not list him or her.

2. For each section of the exam that applies, put P (for pass) or F (for fail).

3. Count the graduates who had passed all sections of the exam required to become licensed. Enter this number on item 7 of the preliminary annual report worksheet.

4. Attach to Grid 3 a copy of state licensing examination reports showing that these graduates passed.

Name of Graduate	Written Exam (National)	Written Exam (State)	Practical Exam

Make as many copies of this Grid as you need. If you are able to produce the same information with a computer report, that is acceptable also.
